[SCJA, s. 10A]

Evidence by conditioned statements

33.—(1) Notwithstanding anything in any written law, a written statement made by any person summoned as a witness in any inquiry is admissible as evidence at the inquiry to the same extent and to the same effect as oral evidence by the person, if the following conditions are satisfied:

- (a) the statement appears to be signed by the person who made it; and
- (b) the statement contains a declaration by the person to the effect that it is true to the best of his knowledge and belief and that he made the statement knowing that, if it were given in evidence, he would be liable to prosecution if he stated in it anything he knew to be false or did not believe to be true.

(2) The following provisions also apply to any written statement given in evidence under this section:

- (a) if the statement is made by a person below the age of 21 years, it shall state his age;
- (b) if it is made by a person who cannot read it, it shall be read to him before he signs it and shall be accompanied by a declaration by the person who read the statement to him, stating that it was so read; and
- (c) if it refers to any other document as an exhibit, it shall be accompanied by a copy of that document or by information that will enable the Coroner to inspect that document or a copy of it.

(3) Where a written statement made by any witness is admitted in evidence under this section in an inquiry (referred to in this Act as a

conditioned statement), the Coroner may call the person to give evidence.

Reading over evidence and correction

34.—(1) The conditioned statement, if any, of a witness in an inquiry shall be read over to him.

(2) If the witness denies the correctness of any part of the conditioned statement, the Coroner may, instead of correcting the conditioned statement, make a memorandum on it of the objection made to it by the witness and shall add such remarks as the Coroner thinks necessary.

(3) If the witness does not understand English, the conditioned statement shall be interpreted for him into the language in which it was given or in a language which the witness understands.

Questioning of witnesses

35.—(1) Any properly interested person, and any other person who has the permission of the Coroner to do so, may examine a witness in person or by counsel.

(2) Where at any inquiry the report of the pathologist who has conducted or supervised a post-mortem examination of the body or the report of a person who has made a special examination under section 19(2)(b) is received in evidence, any person referred to in subsection (1) who desires to examine the maker of that report may require the Coroner to summon that person as a witness, and the Coroner shall do so.

[CPC, ss. 288, 289; HK Coroners Ord, s. 32]

Manner of recording evidence

36.—(1) The evidence given in any inquiry shall be recorded by the Coroner in writing or in any other suitable form of recording whereby the evidence can be reduced to a readable form.

(2) Evidence recorded in writing or, if it is not recorded in writing, the transcript of the evidence recorded, must be in English and signed by the Coroner, and shall form part of the record of the inquiry.

(3) Evidence may be recorded in the form of question and answer or in the form of a narrative, as the Coroner thinks fit.

Rules of evidence not applicable

37. A Coroner holding an inquiry is not bound by the rules of evidence and may conduct an inquiry in any manner he reasonably thinks fit.

Adjournment of inquiry

38. A Coroner holding an inquiry in any place may adjourn the inquiry to another day and order the adjourned inquiry to be held in the same or any other place.

[CPC, s. 295]

- (b) section 64, 65 or 66 of the Road Traffic Act (Cap. 276); or
- (c) Part IV of the Workplace Safety and Health Act (Cap. 354A),

in relation to an act which caused or could have caused the death which is the subject of the inquiry, the Coroner shall adjourn the inquiry until after the conclusion of the criminal proceedings.

(2) Where a Coroner resumes an inquiry after the conclusion of the criminal proceedings referred to in subsection (1), he shall continue with the inquiry from the stage at which it was adjourned, provided that at the resumed inquiry no finding shall be made which is inconsistent with the result of those criminal proceedings.

(3) If, having regard to the result of the criminal proceedings referred to in subsection (1), there has been a finding in those proceedings as to the cause of and circumstances connected with the death, and the Coroner decides not to resume the inquiry, he shall —

- (a) endorse his record and the certificate required under section 42 accordingly; and

- (b) send to the Public Prosecutor and the Commissioner of Police each a copy of the certificate referred to in section 42.
- (4) Where an inquiry is adjourned under subsection (1), it shall be the duty of —
- (a) the District Judge or Magistrate before whom the criminal proceedings referred to in subsection (1) are concluded; or
- (b) the Registrar of the Supreme Court, in the case of any criminal proceedings before the High Court or the Court of Appeal,
- to inform the Coroner responsible for holding the inquiry of the result of the criminal proceedings in relation to the subject of the inquiry.
- (5) In this section, “criminal proceedings” means the proceedings before —
- (a) a Magistrate at any committal proceeding;
- (b) any court by which a person is tried; or
- (c) any court before which an appeal from the decision of the court referred to in paragraph (b) is heard,

and criminal proceedings shall not be deemed to be concluded until no further appeal can be made in the course of them.

(2) Where a Coroner resumes his inquiry after the conclusion of the inquiry by the commission or committee referred to in subsection (1), he shall continue with his inquiry from the stage at which it was adjourned, and may have regard to any report or finding by the

commission or committee which the Coroner considers relevant to his inquiry.

(3) If, having regard to the report of the inquiry by the commission or committee referred to in subsection (1), there has been a finding in that inquiry as to the cause of and circumstances connected with the death, and the Coroner decides not to resume his inquiry, he shall —

- (a) endorse his record and the certificate required under section 42 accordingly; and
- (b) send to the Public Prosecutor and the Commissioner of Police each a copy of the certificate referred to in section 42.

- (b) is at any time unable to complete the inquiry himself; or
- (c) is unable to re-open an inquiry previously concluded by himself when so directed by the Public Prosecutor under section 26(3),

another Coroner may hold, continue or re-open the inquiry, as the case may be, and may proceed as if he had viewed the body or recorded all the evidence at the inquiry himself.

[CPC, ss. 296, 297]

Coroner's certificate

42.—(1) Where an inquiry is held into the death of any person, the Coroner shall complete and sign a certificate setting out the cause of death as found at the inquiry and shall, within 48 hours after the conclusion of the inquiry, forward a copy of the certificate to —
